

The Summer Space 2017

WEEK 05.
24th to 28th of July

DAY 01 Today we came back from one week summer break. So nice to see each other again! We started week 5 with sharing our vacation impressions. Now we are ready to work again. Each group summarised how the project is proceeding and made plans for next 4 weeks. After lunch, we continued working in the project groups. At the end of the day we had a short check out where we discussed what are our next steps.

DAY 02 In the morning, the high school students work in small groups, master students had a short meeting to talk about the duties. This week we plan to have a common workshop in public spaces of Bergsjön. We decide locations, discuss activities we are going to run, what materials we need for it and who is responsible for what. We divide tasks and make a time plan. Everyone has their own role.

DAY 03 Today some of us went to **Angered** where we held a workshop for students attending **Entrepreneurship camp*** arranged by **Bergsjön 2021** in collaboration with **Bergsjöskolan**. We introduced some design methods that they could use in their process. It was an exciting experience for high school students to have a leading role this time. After lunch we worked on workshop preparations and later we went for a study trip to the **Health Care Center (Bergsjön Vårdcentral)**. It was a very interesting experience and we had constructive discussion with **Christer Andersson**, the head of Health Care center.

DAY 04 In the morning we all were very busy preparing for the workshop. After lunch, we had a visit by **Isak Rizell** former student of **Chalmers University of Technology**, who told us about his life and his **Music School** with the focus on cultural integration. In the afternoon we had the workshop outside in two different spots in Bergsjön. We met a lot of new people, presented what we do and asked their opinions. We considered it being successful experience, it was both fun and also necessary to develop our projects further.

DAY 05 It is the end of the week and we are working on summarising our workshop, we discuss what went well and what didn't, what can we learn from it? After lunch **Ola** made a talk about his life experience as entrepreneur, it was very inspiring for all of us. At the end of the day each group did a short presentation about their projects, we made evaluation of the week and we did a check out for the weekend.

Workshop in Entrepreneurship Camp in Angered

Visiting Frölunda Fire Station

Visiting Health Care Center (Bergsjön Vårdcentral)

Workshop on the square in Bergsjön
