

The Summer Space 2017

WEEK 08.
14th to 18th of August

DAY 01 Today was our last Monday meeting. We planed the week to keep track on all important things to fix before final presentations. We made the final adjustments in our summaries, later we put them into the common layout file which **Aleks** and **Natalie** prepared for the final presentations.

DAY 02 The day was mostly dedicated to group work. The final deadline was approaching and there was still plenty of work to do. In the afternoon we had a visit from **Lina** who was working in **Park och Natur** with a lake project. She had a brainstorming session with the "Public Spaces" group.

DAY 03 In the morning we had a visit from **Stefan Bengtsson**, president of **Chalmers University of Technology**. He gave input on our four main projects. In the afternoon, we printed small "hand books", a summary of our projects in order to give written overview on our process. Each group prepares their own presentation

DAY 04 We started the day with practicing our presentations and giving feedback to each other. We wanted to be prepared for variety of questions. In the afternoon, we had the final presentations in the city center, in one of **Gothenburg University** buildings. A lot of stakeholders came to listen to presentations, as well as family and friends supporting us. We got feedback from them on our work during the last 8 weeks. The day finished with dinner buffet and mingle with our guests.

DAY 05 The final day of **The (Summer) Space** project. For presenting our results we had chosed to be in **Bergsjön Library**, an open public space, where everyone could join. It was a pleasure to share our ideas and listen to feedback. After the presentations we had a lunch and mingle in our office together with people who have participated in the event. After mingle we had final evaluation of the last week and summarised our experience. And for sure we had celebration part of the day: we received diplomas of participation and a sweet gift. Thanks for the nice summer work everyone!
